COMMENTS/REASONS FOR ALLOWANCE

1. Claims 1, 17-19, 21, 22, 25-27 and 30 are allowable. Claim 23, previously withdrawn from consideration as a result of a restriction requirement, requires all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), the restriction requirement between inventions I and II, as set forth in the Office action mailed on September 27, 2004, is hereby withdrawn and claim 23 is hereby rejoined and fully examined for patentability under 37 CFR 1.104.

In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or adequately suggest the instantly claimed devices for producing and distributing a polyphase mixture between a secondary fluid injected into said device and a fluid or mixture of fluids originating from an upper granular bed, where the device is located between two successive upper and lower granular beds of a fixed bed reactor, and where the fluids are circulated through said beds in a co-current descending manner.

Any comments considered necessary by applicant must be submitted no later than the
